About IPOR

Institute for Public Opinion Research (IPOR) is an independent research institution with ability to gauge public opinion at its best on social issues, democracy and service delivery throughout Pakistan. IPOR is registered under section 32 of companies act, 1984 (XLVII of 1984) with the Security and Exchange Commission of Pakistan (SECP). IPOR Executive is also a member of European Society for Opinion and Market Research (ESOMAR). It is globally recognized mark of excellence within and beyond the industry.

The results in this Report do not represent views held by IPOR. The results only represent public opinion, computed on the basis of views expressed by respondents selected through the procedure outlined in the methodology section of this Report. IPOR cannot be held liable to the users of this data. Any part of this publication can be used or cited with a clear reference to IPOR.

Survey Methodology

Period : October 27-November 11, 2020
Eligibility : Age 18+.
Response Rate : Approximately 29%
Margin of Error : $\pm 2.19\%$ at 95% confidence level at national-level results.

Sample size = 2003

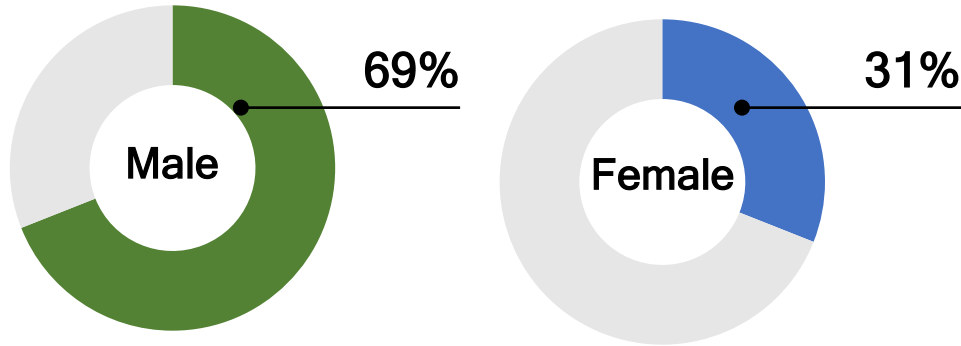

- Due to the COVID-19 pandemic, the survey was conducted through Computer Assisted Telephonic Interviews (**CATI**). These interviews were conducted by a team of trained professionals with an attempt to closely match the demographic spread of Pakistan.
- A phone panel comprised of randomly selected 215,384 active mobile phone users was used as sampling frame to draw sample of adult residents in all four provinces. This Phone Panel was made through Face-to-Face data collection across all districts of Pakistan.
- In the first stage, allocation of primary sample units (PSU) was made by distributing sample to all the provinces as per their actual share. In the second stage, phone number were sorted in **67** districts, and then selection was made using systematic Sampling with a Random Start (SSRS).
- The information in this report has been compiled in accordance with international standards for market and social research methodologies. Figures in charts and tables may not sum to 100 percent due to rounding error.

Parties Ratings

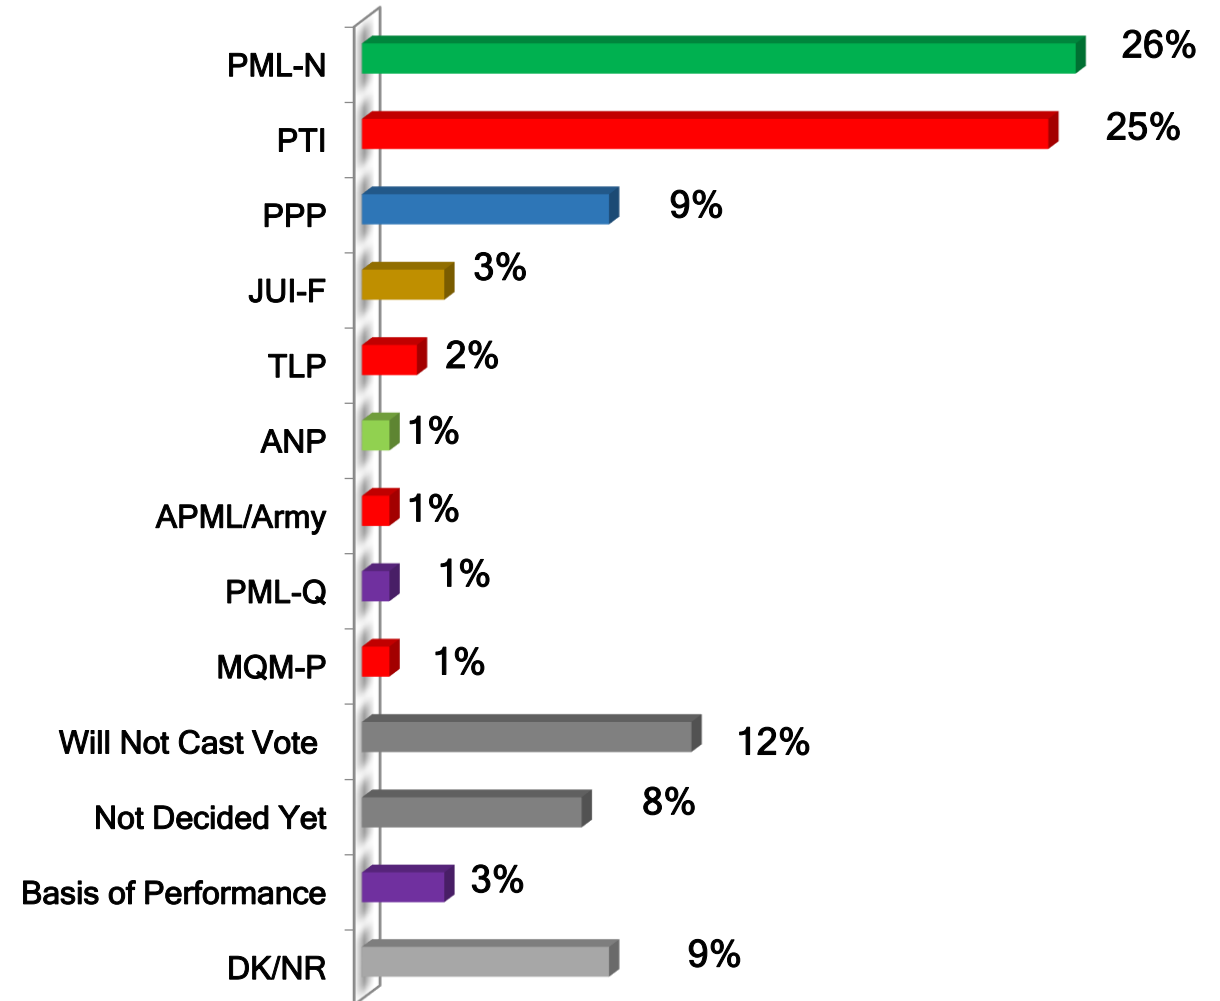

Q: As you know PDM is demanding mid-term elections considering their demand If the National Assembly elections are held in near future which party would you like to vote for?

(Open-ended)
(Slide 1/2)

The ballot test shows PML-N and PTI are at neck-to-neck in their popularity with **26%** and **25%** respectively. Whereas, PPP standing at **9%**. The biggest finding of this poll is that in case of Mid-Term elections no political party will be able form the government single handedly. But the sign of concern is dismay on the electoral system and politicians as **12%** saying they will not cast vote at all.
